OVERLAND PARK, KAN. – The Coordinating Committee For Automotive Repair (CCAR®) announces five more auto repair facilities have received the organization’s “GreenLink Shop” recognition.

The **GreenLink Shop** status, an extension of CCAR’s **CCAR-GreenLink®** Environmental Compliance Assistance Center and **S/P2** (Safety and Pollution Prevention) E-learning Program, is designed to promote consumer confidence in local automotive repair facilities’ environmental/safety awareness and stewardship.

“CCAR is delighted to welcome these facilities to the **GreenLink Shop** family,” said Daren Fristoe, CCAR President and Chief Operating Officer. “With their addition, the **GreenLink Shop** program has its first-ever representatives in Florida, Hawaii and Ohio, and we commend all five on their commitment to green and safe practices in their operations.”

Repair facilities seeking the **GreenLink Shop** recognition must maintain high standards of excellence in environmental, health and safety (EHS) practices in four categories: business operations, employee training, safety compliance and environmental management. The CCAR initiative recognizes both auto mechanical service facilities and collision repair shops, with separate criteria established for each type of business.
